## Invitation

### *Tell me Swiss* A Transdisciplinary Performance

The FLUX Laboratory and the Geneva University of Art and Design present the world première of *Tell me Swiss*, a danced play created for the Swiss Pavilion at the Expo 2010 Shanghai China. Cisco Aznar, the choreographer, has orchestrated a transdisciplinary performance combining

dance, song and film projections showing an innovative and mordant view of Switzerland today. The dancers' costumes are a creation of the fashion design students of the Head – Geneva and are inspired by the guide uniforms they previously created for the Swiss Pavillon.

6 and 7 September 2010  
at 6 pm and 8 pm  
Swiss Pavilion – Urban Space  
Shanghai Expo Park Zone C,  
Plot 09, CHE

We would like to thank the Fluxum Foundation.
